WHER 'S MY MONEY! A capital translation from the German of Franz Freiheer Gaudy, which appeared some years ago in the Dublin University Magasine. Ah! where's my money? That's a pussling query, H C Neal, Ala Mrs Neel, do

It vanishes. Yet neither in my purse.
Nor purket are there any holes. The very
incomprehensible. I don't disburse For superfluities. I wear plain clothes. I seldom buy jam tarts, preserves or honey; And no one overlooks what debt he owes

More stendily than I. Where is my money? I never tipple. Folks don't see me staggering, Sans cane and castor, in the public street. I have a notion that my own two feet Are much superior to a horse's four, So never call a jarvey. It is funny, The longer ! investigate, the more Astoundedly I ask, Where is my money?

A Pierson, Pa H B Pierson, do J Pendergast, Mo J B Smith, Tenn My money, mind you. Other people's dollars Cohese together nobly. Only mine Cut one another. There's that pink of scholars Van Doppeldronk, he spends as much on wind As I on every thing. Yet he seems rich, He laughs, and wares plumper than a tunny, While I grow slim as a divining-switch, And search for gold as vainly. Where's my money

I can't complain the editors don't pay me;
I get for every sheet One Pound Sixteen;
And well I may! My articles are flamy Enough to blow up any Magazine. What's queerest in the affair though is, that at The same time I miss nothing but the one. He That watches me will find I don't lose hat, Gloves, fogle, stick or cloak. Tis always money

Were I rake I'd say so. Where one roysters Beyond the rules, of course his cash must go.
Tis true I regularly sup on oysters,
Cheese, brandy and all that. But, even so, What signifies a ducat of a night? barmaids," you may fancy. No. The sunny Loadstar that draws my tin is not the light From their eyes any how. Where then's my

I own, I do make presents to the sex-Books, watches, trinkets, music too (not Haydn's,) Combs, shawls, veils, bonnets—things that might

A man to count. But still I gain by what l lose in this way. 'Tis experience won-eh? I think so. My acquaintances thir k not. No matter. I grow tedfous. Where's my money?

WAS ADAM A BRICK ?-GOV. Brigham Young, in one of his discourses at Salt Lake city, seems to disbelieve that portion of the Bible which asserts that God G W Mathew, Ger formed Adam from the dust of the earth. J M Matthews do He takes the following view of it :

"Listen, ye Latter Day Saints! Supposing that Adam was formed actually out of clay, out of the same kind of material from which bricks are formed: that with this matter God made the pattern of a man, and breathed into it the breath of life, and left it there, in that state of supposed perfection, he would have been an abode to this day. He would not have known anything. Some of you may doubt the truth of what I now say, and argue that the Lord could teach him. This a mistake. The Lord could not have taught him in any other way than in which he did. You believe Adam was made of the dust of the earth. This I do not belie 'e, a though it is supposed that it is so written in the Bible; but it is not, to my understanding. You can write that information to the States if you please, that I have publicly declared that I de not be- ist door from corner Pa avenue. lieve that portion of the Bible, as the Christian world do. I never did, and I never want to. What is the reason I do not? Because I have come to understanding, and banished from my mind all the baby stories my mother taught me when I was a child. But suppose Adam Q arries near the Little 'alls Bridge on the Mar was made and fashioned the same as we make adobes; if he had never drank of ping, &c., which they will furnish at the usuthe bitter cup, the Lord might have talked to him to this day, and he would have continued as he was to all eternity, never advancing one particle in the school of intelligence. This idea opens up a field of light to the intelligent mind. How can you know truth but by its opposite, or light but by its opposite? The absence of light is darkness. How can sweetness be known but by its opposite, bitter? It is by this means that we obtain all intelligence. This is Mormonism, and it is founded upon all truth-upon every principle of true philosophy; in fact the gospel of Jesus Christ is the only true philosophy in existence. There is not one particle of it that is not strictly philosophical,

tinue faithful. How to Know the Age of Horses The colt is born with twelve grinders. When four front teeth have made their appearance, the colt is twelve days old: and when the next four comes forth, it is four weeks old. When the corner teeth appear, the colt is eight months, and when the latter have attained to the height of the front teeth, it is one year old. The two-year colt has the kernel (the middle of the tooth's crown) ground out of ail the front teeth; in the third year, the middle front teeth are being shifted: and when three years old, these are substituted by horse teeth. The next four teeth are shifted in the fourth year, and corner teeth in the fifth. At the sixth year, the kernel is worn out of the lower middle front teeth, and the bridle teeth have now attained to their ful growth. At seven years, a hook has been formed on the corner teeth of the upper jaw; the kernel of the teeth next at the middle fronts is worn off. At eight years of age the kernel is worn out of all the lower front teeth and begins to decrease in the middle upper fronts. In the ninth year, the kernel has wholly disappeared from the upper middie front teeth, the hook on the corner teeth has increased in size and the bridle teeth lose their points. In the tenth year, the kernel is worn out of the teeth next to the middle fronts of the upper jaw; and in the eleventh year the kernel has entirely vanished from the corner teeth of the same jaw. At twelve years old the crown of all the front teeth in the lower jaw has become triangular, and the bridle teeth are much worn down. As the horse advances in age, the gums 10 pieces Lupius bombazines and mourning alpacas. shrink away from the teeth, which conshrink away from the teeth, which con15 pieces Pr neh merinos, embracing all the desir ance, and their kernels become metamorphosed into a darkish point; grey hairs - increase in the forehead, over the eyes, and the chin assumes the form of an angle. - American Agriculturist.

CONFIDENCE IN ONE'S SELF .- When a crisis belalls you and the emergency requires moral courage and noble manhood to meet it, be equal to the requirements of the moment and rise superior to the obs acies in your path The universal testimony of men, whose experience ex actly coincides with yours, furnishes the consoling reflection that difficulties may be ended by opposition. There is no blessing equal to the possession of a stout heart. The magnitude of the danger needs nothing more than a greater effort than ever at your hands. If you prove recreant in the hour of trial, you are the worst of recreants, and deserve no compassion. Be not dismayed or unmanned, when you should be bold and daring, unflinching and resolute. The cloud whose threatening murmurs you hear with fear and dread, is pregnant with blessings, and the frown whose sternnes now makes you shudder and tremble, will ere long be succeeded by a smile of bewitching sweetness and beat sity. Then be strong and manly, oppose equal erces to open difficulties; keep a stiff apper lip; and trust in Providence. Greatness can only be achieved by those who are tried. The condition of that achievement is confidence is one's self. - Richmond Post.

The ublic often deceived, soula not believe the simple and sublime truths announced by the discoverer -But facts, undeniable facts attested by wit esses of the highest class and character, are now triumphing over all doubts. INCREDULITY IS OVER-"HROWN by a mass of testimony which is perfectly

The KLIXIR remedies, in all cases, the deplorable vils arising from a misuse or abuse of the various rgans which make up the wonderful machine called uan. It restores to full v gor every delicate func-den connected with that mysterious compound agency of matter nd mind, necessary to the repre-tuction of human life. To persons of feeble muscu-lar frame, or deficient in vital power, it is recom mended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not con fined to either sex or to any age. The feeble girl, the ailing wife, the listless, ernevated youth, the verworn man of business, the victim of nervous de pression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable ren vator. To those who have a predisposition to paralysis it will prove a complete and unfalling safeguard against that terri-ble malady. There are many, perhaps, who have so trified with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despeir. The Elixir deals with disease as a statists, without reference to causes, and will not not premove the disorder itself, but

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system, leading to neryous niseases, and the forms of nervous disease it self, are so numerous that it would require a column to enumerate the maladies for which this prepara ration is a specific. A few, however, may be enume rated, vis: neuralgis, tic dolereaux, heatache, incipient paralysis, hysteria, palpitation of the heart, spens affections muscular debitity, tremers, flatulance a pricking sensation in the flesh, n mbness, torpid ity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep an i terrifying dreams, inability to re main in one place position, weakness of the procreative organs, sextia incompetency, melancholy monomania, fluor albus, nking at the stomach, female irregularities, a chronic tendency to miscar riage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine

Whenever the organs to be acted upon are free from malformation or strictural diseases it is averred MORSE'S INVIGORATING BLIXER

will replace weakness with strength, incapacity with -Molency, irregularity with uniform and natural so tivity, and this not only without hasard of reaction but with a happy effect on the general croanisation.

**Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralisation of the nervos or motion and sensation is physical death. Bear in mind also, that for every kind of nervous disease the Riixer Cordial is the only reliable preparation known.
